

Just Another Old Love Song
Joe Purdy

So this is my first shot at writing tabs/chords for a song. Please feel free to blow up comments section with whatever. I must give credit where tis due: my friend Leaf helped me out with this and by help I mean he did it. I am just posting his work.

~CAPO 2~ (all chords are actual chords and fingering is in relation to capo)
Song is in the key of D maj. Listen to it and you can determine the fingering and how plays it. I add some flare to it myself.
