

I Remember

Joel Alme

E **A** **C#m** **A**
When the night is tumbling on and the moon is shining strong

A **B**
Iâ€™ll think of you, are you still alone in the world?

E **A** **C#m** **A**
And when the sun is breaking through and when the day is coming, too

A **B**
Iâ€™ll think of you, are you still alone in the world?

E **A** **E** **A**
Do you remember back when we were just some happy kids then

A **B** **E**
But life was pushing a little bit harder on you

E **A**
Our life is short, no time to waste

C#m **A**
I am your friend, donâ€™t hesitate

A
When the lights go out

B **B**
Thereâ€™re not only stars left in the sky

E **A**
I know itâ€™s hard, but you got to leave

C#m **A**
That lonely heart wonâ€™t set you free

A **B** **B**
When the moon is high I hope to see you there.. That someday..

E **A** **E** **A**
Do you remember back when we were just some happy kids then

A **B** **E**
But life was pushing a little bit harder on you

E **A** **E** **A**
And I remember back when you said I wonâ€™t make it through this

A **B**
I should have been there for you

B **E**
But I was only.. A kid then..
