

Revolution

John Butler Trio

Artist: John Butler Trio

Title: Revolution

Tuning: Standard

No Capo Needed!

Can Play Song With Capo To Suit Voice

[verse 1]

E **G**
So tell me family now what do you think?

C **A**
Watch it all go down the great big sink,

E **G**
watch how the scum it rises to the top.

C **A**
Don t you wonder when it s all gonna stop?

E **G**
Sometimes I wonder how we do sleep,

C **A**
serving the dodgy companies we keep.

E **G**
All kicking and scrounging for the very first place

C **A**
- dictionary defintion of a rat race.

E **G**
Pay off those losers we elect to lead.

C **A**
stealing from the mouths that we re meant to feed.

E **G**
Enslaving the very clothes upon my back,

C **A**
I feel the sting but I hear no crack, no crack, I m sayin..

[Chorus]

C **G**
Running through the fire,
C
running through the flame,
G
Running through the hatred,
C
pushing through the blame,
G **D**
running through the hopelessness and shame,
C
Revolution already underway

[Verse 2]

E **G**
Big heavy pirates man digging those holes,
C **A**
messing with something that they can t control.
E **G**
Trespassing lands where they don t belong,
C **A**
all I hear is screaming whee there once were songs.
E **G**
I got my brothers there fighting those wars,
C **A**
fighting over scraps and scraping their sores.
E **G**
Under a blanket of a fire and pride that can t keep us warm for the cold
inside, inside,
C
I m saying

[Chorus]

C **G**
Running through the fire,

C
running through the flame,

G
Running through the hatred,

C
pushing through the blame,

G **D**
running through the hopelessness and shame,

C
Revolution already underway

[verse 3]

E **G**
So tell me when you think we re gonna rise?

C **A**
Wake from this slumber wipe the tears from our eyes?

E **G**
Yes from this nightmare yes I must now wake,

C **A**
open my fist my destiny I take!

E **G**
Good people sick and tired of being pushed around,

C **A**
we call them kings but I see no crown.

E **G**
Tell me when you think we ll just stand up?

C **A**
Say enough is enough is enough, enough, I m saying

[Chorus]

C **G**
Running through the fire,

C
running through the flame,

G

Running through the hatred,

C

pushing through the blame,

G

D

running through the hopelessness and shame,

C

Revolution already underway
