Tell Me Why
John Butler Trio

On the D Chord hammer on 3 fret of the e string

[Intro]
C G Em D
C G Em D

[Verse]
```
          C
I got to let it go
          G              Em   D
I got to give it up
      C
Gonna take a ride
        G              Em   D
In my pickup truck
              C
Because it s one in five
        G          Em   D
Maybe one in ten
              C
That you and i are
                   G                Em   D
Gonna get back together again

            C
I m gonna roll one up
            G                Em   D
I m gonna burn one down
              C
Gonna take a left
                 G                Em   D
Into the shady part of town
      C
And jamie on the corner
            G        Em   D
Gonna hook me up
                C
Ain t nothing i can do
            G                Em   G
But go and get messed up
```

[Chorus]
```
        Am
Because tell me why
        G                    Em   G
You and i keep wasting our time
Am                           G
```

```
Ain t no use trying to read
         Em          D
Your goddamn mind
     C                   Em
And i can t work it if you
              D
Can t work it out
                         C
Tell me what it s all about
         G                       Em   D
Darling, tell me what it s all about

[Verse]
           C
And now i m broken down
         G              Em   G
I got to take it slow
              Am
Gonna catch a greyhound
      G        Em   D
Into chicago
         C
And the windy little city
       G              Em   D
Gonna blow it away
C                        G
All my disillusion and all my pain
Em                       D
All my disillusion and all my pain

[Chorus]
         Am
Because tell me why
         G                   Em   G
You and i keep wasting our time
Am                       G
Ain t no use trying to read
         Em          D
Your goddamn mind
     C                   Em
And i can t work it if you
                D
Can t work it out
                         C
Tell me what it s all about
         G                       Em   D
Darling, tell me what it s all about

[Pre-Chorus]
Am                   Em
   so tangled up in you
         Am          G
I can t separate the two
```

```
                        D
Where do i end and you begin
                        G
Where do i end and you begin
                        D
Where do i end and you begin
                        G
Where do i end and you begin
                        D
Where do i end and you begin

[Chorus]
Am
Tell me why
        G                       Em    G
You and i keep wasting our time
Am                      G
Ain t no use trying to read
        Em          D
Your goddamn mind
     C                      Em
And i can t work it if you
              D
Can t work it out
                        C
Tell me what it s all about

[Outro]
        G                       Em   D
Darling, tell me what it s all about
        G                       Em   D
Darling, tell me what it s all about
        G                       Em   D
Darling, tell me what it s all about
        G                       Em   D
Darling, tell me what it s all about
```
