

Just A Matter Of Time

John Cafferty and the Beaver Brown Band

Capo 3rd Fret

G

There was a time

C

You had no need for rhythm or rhyme

G

And the world seemed so wild and so free

C

just wrapped yourself up in a dream

Em

all you had to do was believe

C

and nothing was out of your reach

Em

so sure how it all falls in line

C

G

its just a matter of time

its just a matter of time

G

Then you wake up one day

C

all your dreams somehow faded away

G

the road that you followed it turned

C

You can't find where the fire once burned

Em

can't look yourself straight in the eyes

C

in your heart of hearts you've compromised.

Em

Baby one day we'll all cross that line

C

G

its just a matter of time

its just a matter of time

G

All alone in the still of the night

C

you come face to face with your pride

G

and how much you wanted it all

C

Cant believe now you re taking the fall

G

Then you reach out one day

C

to the light of a new dawning day

G

and you take just one small grain of sand

C

right into the palm of your hand

Em

and maybe you find in the end

C

you re able to dream once again

Em

and baby you fall back in line

C

G

Its just a matter of time (5x)
