

## A Heart Disease Called Love

John Cooper Clarke

From the album Zip Style Method, later covered by the Field Mice on their original demo tape. Posting purely for its niceness and simplicity.

Intro

C/F/C/G

**C** **Cmaj7**  
One kiss became a weapon.

**G**  
I don t want to bleed in vain.

**F** **Fmaj7**  
Clouds collide in the heavens,

**C** **G**  
I surrender. To the rain.

**C** **Cmaj7**  
The death bells that also rang,

**G**  
like madness... from above.

**F** **Fmaj7** **C** **Cmaj7**  
I m going... out with a bang,

**G** **C**  
and a heart... disease called love.

and repeat.

Ninety-nine, below zero,  
would seem like fever now.  
You know me... no hero,  
don t even ask me how.  
I m down in the deep deep freeze,  
what was I thinking of...  
In the painful breeze,  
by the frozen trees,  
with a heart disease called love.

After dinner. Mints. A new lover,  
and the coffee s so bitter and black.  
Your fingerprints... they cover,  
this knife sticking out of my back.  
You overlooked... the fine details.  
You should ve worn your gloves.  
I ve got a girl in jail, and a house for sale,  
and a heart disease called love.
