```
      A          Asus4          A
Sing songs of the sunrise into the nigh
      A          Asus4          A
the stars as a timepiece make it all right
      A          Asus4          A
Make friends with the darkness, talk to the moon
      A          Asus4
and when the light lifts,
      Asus4      A
you can let out a tune
```

```
      A          Asus4          A
Then to the mountains, climbed through the sky
      A          Asus4          A
They showed there their whiteness, watched their gold fly
      A          Asus4          A
Shared in their treasures, shook at their might
      A          Asus4          C
Spoke softly in wonders... cowboy s delight
```
