

**Big Train**

**John Fogerty**

**B7**      **E**          **A**      **E**  
When I was young I spent my summer days  
                  **B7**  
layin on the tracks  
          **E**                  **B7**      **E**                  **A**  
The sound of the wheel rollin on the steel  
          **E**  
Took me out, took me back

Chorus:

**A**                  **E**  
Big train from Memphis  
          **A**                  **E**  
Big train from Memphis  
                  **B7**          **E**  
Now it s gone gone gone  
**B7**          **E**  
Gone gone gone

Verse 2:

Like no one before, he let out a roar  
And I just had to tag along  
Each night I went to bed with a sound in my head  
And the dream was a song

(chorus)

(instrumental)

Verse 3:

Well I rode em in and back out again  
You know what they say about trains  
But I m tellin you, since that Memphis train came through  
This whole world s not the same

(chorus)

(play E and fade)
