

A Doubt

John Frusciante

This is my first chord chart but I couldn't find a right one on here so I thought I'd put it on here.

This song is tricky cause it shifts time signatures a lot so I'll try and throw in the changes. Before each measure the time signature will be in parentheses. If there's no parentheses before the line just assume it's in 6/8, most of the song is. So just follow those and listen for the changes and you should be good. Have Fun!
