So I didn't show strum pattern because let's be honest, youre playing a synth part so it's entirely up to you. So... the lyrics correspond to the tab just above them, and the tab alignment corresponds to the timing of the first line of lyrics for each verse.

Cheers.

Mistakes help one see
That you make your own surroundings
Life is a dream
And is made by inwardly seeing what you want it to be

Success has its trappings
You judge yourself based on how you think you're seen
And you may guess how you're spoken about
And try to fit into a box you can't get out of or move freely about

Respect who you are inside
Let your heart be your guide now
What others think says nothing about you
Just how you relate to what they're going through
And that's not much
Does not say much

Unless it's a friend when it's everything
 Those who don't want you to be anything but what you are

Do you feel this my sad emotion, do you feel it inside my baby
 Forever is here in receptive motion, earth with a river inside my baby

Yeah oh yeah, Do you feel it inside your body
 yeah oh yeah, Earth with a river inside my baby
