1/2 step down

Intro:
```
  C      Em     D      Am
  C      Em     D      Am
```

```
   C                    Em
```
A song to play when I m lonely,
```
D                       Am
```
Win and never play a game again,
```
C                       Em
```
No one to face when I m falling,
```
D              Am
```
Holding tight to dreams that never end

```
      G
```
I ll be you,
```
  D
```
I do,
```
     Am
```
I ll be you,
```
                  G      D    Am
```
No one s afraid to be called by another name,
```
               G   D          Am
```
No one dares to be put down where they don t belong,
```
Am                 G    D
```
No where s anyone s reason,
```
Am                 G     D
```
Everything dying and leaving,

```
C                                        G   Am
```
Out with these faults and you make me a baby,
```
C                                        G   Am
```
Faking a movement by no ones seeing it,
```
G      Am          G      Am
```
No one always finds peace flung,
```
G      Am        G        Am
```
No one chooses to beat my pride down.

```
C                    Em
```
Symbols pierce right through me,

```
D                      Am
People fail to be drawn up,
C                        Em
Sunlight to fate accumulates,
D                      Am
Loving pain to be clung to,

    G    D    Am
By Luminous bodies,
                    G    D             Am
Only waiting for long signs to be wrong,

And true to us,

Am                     G    D
Out of place in my own time,
Am                     G    D
Drowning thinking that I m dry,

C                                         G    Am
Holding on to facts that will never be proven,
C                                         G    Am
Faking an action cuz no one is looking,
G    Am         G    Am
Hello when I m crashing,
G         Am                   G        Am
Feeling nothing when my life flashes before my eyes,

G      D              Am
        You should ve threw me down,

Is the content so much
G      D              Am
        You should ve threw me down,

Is the content so much
G      D              Am
        You should ve threw me down,

Is the content so much
G      D              Am
        You should ve threw me down,

Is the content so much
```
