

**The Slaughter**  
**John Frusciante**

Artist: John Frusciante  
Album: Shadows Collide With People  
Song: The Slaughter

In this song the hard part is getting all the chords and the timing right. As you can I've typed down three ways of taking the A and B chords, and in this song it would be to use all three. Different places it will be easier to grab the next chord if the previous chord is lying closer. For example, in the 2nd chorus it is easier to use the A chord before the A/F7 chord, while in the next line it is easier to use the A chord x02220 before the Amaj7 chord. Try to work it out for yourself. It's the same chord, it is just easier to shift to the next one.
