

Sigourney Weaver
John Grant

Album: Queen of Denmark (2010)
Song: Sigourney Weaver
Tabbed By: Ventura41

My favorite song from his awesome album. Capo on 1st fret.

Em **A**
When I woke up today, the air was very strange
Am **G** **B**
I couldn't feel my skin and there was evil in my bones
Em **A**
I tried to speak but found that I didn't have a voice
Am **G** **B**
It was a prison like the one you would find in the twilight zone

G **F** **C**
And I feel just like Sigourney Wea--ver
F **C** **D**
When she had to kill those aliens
G **F** **C**
And one guy tried to get them back to the earth
F **C** **D**
And she couldn't believe her ears

Repeat.

So I was taken or I went towards what was west
Where the ground was dead and struvk out at the giant sky
The sky was black and filled with tiny silver holes
And it was there with the frightened voice that I began to cry out loud

I feel just like Winona Ryder
In that movie about vampires
And she couldn't get that accent right
Neither could that other guy

And I feel just like I am on Jupiter
One man looks like rainbows, sure
But it doesn't lend itself to life
And I haven't finished yet
