```
Drive South
John Hiatt
```

[Verse] I didn t say we wouldn t hurt anymore That s how you learn, you just get burned But we don t have to feel like dirt anymore A/E Е Though love s not earned, baby it s our turn We were always lookin for true north Asus4 With our heads in the clouds, just a little off course Bsus But I left that motor runnin , so if you re feelin down and out [Chorus] E E/G# Come on baby drive south, Aadd9 with the one you love Come on baby drive south, Α Badd4 with the one you love [Verse] I m not talkin bout retreatin little girl Е Gonna take our stand, in this Chevy van Windows open on the rest of the world A/EHoldin hands, all the way to Dixieland We ve been tryin to turn our lives around Asus4 Since we were little kids, it s been wearin us down Α Don t turn away now darlin lets fire it up and wind it out

Oh

```
[Chorus]
                           E
                                E/G#
Come on baby drive south,
                        Aadd9
                                Badd4
with the one you love
                           E
                                E/G#
Come on baby drive south,
                        Α
                            Badd4
with the one you love
[Bridge]
I heard your mama callin , I think she was just stallin
Don t know who she was talkin to, baby me and you
We could go down with a smile on, don t bother to pack your nylons
                                   Badd4
Just keep them pretty legs showin , it gets hot down where we re goin
[Pre-chorus]
We were always lookin for true north
                                     Asus4
With our heads in the clouds, just a little off course
But I left that motor runnin , so if you re feelin down and out
Oh
[Chorus]
                           E
                                E/G#
    D
Come on baby drive south,
                        Aadd9
                                Badd4
with the one you love
                           E
                                E/G#
Come on baby drive south,
                            Badd4
                        Α
with the one you love
```

repeat chorus as many times as desired then end with a  $\ensuremath{\mathtt{B}}$
