

Something Broken

John Hiatt

C
There s something broken in my heart
F
oh it was nothing you done
C
There s something broken in my heart
G
I guess that s just the way it come
C
There s something broken in my heart
F
Something I just can t fix
C **G** **C**
There s something broken, something broken in my heart.

C
I ve tried every powder and every pill
F
to put it back together somehow
C
Rode high with the fool up on the hill
G
Came down with the draft horse and the plow
C
I ve been to the land of milk and honey
F
but honey I m broke down now
C **G** **C**
There s something broken, something broken in my heart.

F **C**
I m gonna go downtown tonight and find me a woman
F **C** **G**
And try to keep those jagged edges from my mind
F **C**
And if I don t start a fight I ll just keep running
F **G**
Until I break on through into the morning light
C
There s something broken in my heart
F
oh it was nothing you done
C
There s something broken in my heart
G
I know I m not the only one
C

There s something broken in my heart

F

Something I just can t fix

C

G

C

There s something broken, something broken in my heart.

G

F

C

Oh something broken, something broken in my heart.
