

**Something Broken**

**John Hiatt**

**C**  
There s something broken in my heart  
**F**  
oh it was nothing you done  
**C**  
There s something broken in my heart  
**G**  
I guess that s just the way it come  
**C**  
There s something broken in my heart  
**F**  
Something I just can t fix  
**C** **G** **C**  
There s something broken, something broken in my heart.

**C**  
I ve tried every powder and every pill  
**F**  
to put it back together somehow  
**C**  
Rode high with the fool up on the hill  
**G**  
Came down with the draft horse and the plow  
**C**  
I ve been to the land of milk and honey  
**F**  
but honey I m broke down now  
**C** **G** **C**  
There s something broken, something broken in my heart.

**F** **C**  
I m gonna go downtown tonight and find me a woman  
**F** **C** **G**  
And try to keep those jagged edges from my mind  
**F** **C**  
And if I don t start a fight I ll just keep running  
**F** **G**  
Until I break on through into the morning light  
**C**  
There s something broken in my heart  
**F**  
oh it was nothing you done  
**C**  
There s something broken in my heart  
**G**  
I know I m not the only one  
**C**

There s something broken in my heart

**F**

Something I just can t fix

**C**

**G**

**C**

There s something broken, something broken in my heart.

**G**

**F**

**C**

Oh something broken, something broken in my heart.
