

If Youre Out There

John Legend

F **C**
If you hear this message, wherever you stand
G **G**
I m calling every woman, calling every man
F
We re the generation
C
We can t afford to wait
G **G**
The future started yesterday and we re already late

F **C**
We ve been looking for a song to sing
G
Searched for a melody
G
Searched for someone to lead
F **C**
We ve been looking for the world to change
G
If you feel the same
G
Then go on and say

F
If you re out there
C
Sing along with me
G
If you re out there
G **F**
I m dying to believe that you re out there
C
Stand up and say it loud
G
If you re out there
G
Tomorrow s starting now
F-C-G
Now, now

It continues like that for the rest of the song. Enjoy and leave comments.
