[Verse]
F   **C**
    Ran into you yesterday

                                                             Bb
Memories rushed through my brain

                                                                          F
It's starting to hit me, now you're not with me, I realized I made a mistake
                                              C
I thought I needed some space

                                     Bb
But I just let love go to waste

  Gm
It's so crystal clear now, that I need you here now, I got to get you back
today

[Chorus 1]
                            Bb
This time I want it all
                                 F
This time I want it all
                                     C
Showing you all the cards
                                 Gm
Giving you all my heart
                                      Bb
This time I'll take the chance
                                    F
This time I'll be a man
                               C
I can be all you need
                                 F
This time is all of me

[Verse 2]
I hit the club every night
Looking to score a good time
It's not like I planned it
I'm left empty handed
I'm still alone in my mind
Now what will it take to feel right

Can I come see you tonight?
Is there someone new now?
What can I do now?
Cause I need you back by my side

[Chorus 1]
                                        Bb
This time I want it all
                                          F
This time I want it all
                                                C
Showing you all the cards
                                      Gm
Giving you all my heart
                                                    Bb
This time Iâ€™ll take the chance
                                        F
This time Iâ€™ll be a man
                                      C
I can be all you need
                                          F
This time is all of me

[Chorus 2]
Last time I wasnâ€™t sure
This time I will give you more
Iâ€™m more mature
Iâ€™ll show you
Last time I didnâ€™t know
I messed up and let you go
I need you, donâ€™t say no

[Verse 3]
Lying alone in this room
All that is missing is you
Pick up the phone
Wonâ€™t you come home?

[Chorus 1]
                                        Bb
This time I want it all
                                      F
This time I want it all
                                                C
Showing you all the cards
                                      Gm
Giving you all my heart
                                                Bb
This time Iâ€™ll take the chance
                                      F
This time Iâ€™ll be a man
                                      C
I can be all you need

F
