

Bring On The Lucie

John Lennon

Intro: **E B A B A E**

E B A B A E (same throughout)

We don t care what flag you re waving
We don t even want to know your name
We don t care where you re from or where you re going
All we know is that you came

You re making all our decisions
We just have one request of you
That while you re thinking things over
Here s something you just better do

Free the people now!
Do it do it do it do it now
Free the people now!
Do it do it do it do it now

Well we were caught with our hands in the air
Don t despair paranoia is everywhere
We can shake it with our love when we re scared
So let s shout it aloud like a prayer

Free the people now!
Do it do it do it do it now
Free the people now!
Do it do it do it do it now

We understand your paranoia
But we don t want to play your game
You think you re cool and know what you re doing
666 is your name

So while you re jerking off each-other
You better bear this thought in mind
Your time is up, you better know it
But maybe you don t read the signs

Free the people now!
Do it do it do it do it now
Free the people now!
Do it do it do it do it now

Well you were caught with your hands in the kill
And you still got to swallow your pill
As you slip and slide down the hill
On the blood of the people you killed

Stop the killing now
Do it do it do it do it now
