Hey hey hey alright hey hey hey alright
Dm G

My intentions are good, I use my intuition

Am

It takes me for a ride

But I never understood other people's superstitions

Am

It seemed like suicide

And as I play the game of life

I try to make it better, each and every day

And when I struggle in the night

The magic of the music

Seems to light the way

Intuition takes me everywhere

Well, my instincts are fine, I had to learn to use them

In order to survive

And time after time

Confirmed an old suspicion

It's good to be alive

And when I'm deep down and out

And lose communication, with nothing left to say

It's then I realise

It's only a condition

Of seeing things that way

Ah, intuition takes me there

Intuition takes me everywhere

Intuition, takes me there (repeat and fade)

NOTE: It's fear of the unknown. The unknown is what it is. And to be frightened of it is what sends everybody scurrying around chasing dreams, illusions, wars, peace, love, hate, all that - it's an illusion. Unknown is what it is. Accept that it's unknown and it's plain sailing. (John Lennon)
