

Assassin

John Mayer

Em **G**
I work in the dead of night, when the roads are quiet,

Bm **A**
And no one is around to track my moves

Em **G**
Racing the yellow lights to find the gate is open,

Bm **A**
She's waiting in the room. I just step on through

Em **Bm** **A** **Em**
OHHHHHHH You get in, you get done and then you get gone

Bm **A** **Em**
You never leave a trace, or show your face, you get gone

Bm **A** **G**
Should've turned around and left before the sun came up again

A
But the sun came up again

Em **G**
Enter the morning light to find the day is burning

Bm **A**
the curtains and the wine in a little white room

Em **G**
Though I'm not alone, her head is heavy on me

Bm
She's sleeping like a child

A
What could I do

Em **Bm** **A** **Em**
OHHHHHHH You get in, you get done and then you get gone

Bm **A** **Em**
You never leave a trace, or show your face, you get gone

Bm **A** **G**
Should've turned around and left before the sun came up again

A
But the sun came up again

Bm **D** **G** **Em**
I was a killer, was the best they'd ever seen

Bm **D** **G** **Em**
I'd steal your heart before you ever heard a thing

Bm **D** **G** **Em**
I'm an assassin and I had a job to do

Bm **D** **G** **Em**
Little did I know that girl was an assassin too

D **G**
 Suddenly I m in over my head
Bm **A**
 and I can hardly breathe
D **G**
 Suddenly I m floating over
Bm **A**
 her bed and I feel everything
D **G**
 Suddenly I know exactly what I did,
Bm **A**
 but I can not move a thing
D **G**
 And suddenly I know exactly what I ve done
Bm **A**
 And what it s gonna mean to me, mean to me
Em
 I m gone
