

Love Love Love  
John Prine

[Verse]

**C**                                  **F**                                  **G**  
He stumbled through the alley with his long coat on  
**F**                  **G**                          **C**  
Nothing but a bottle in his hand  
**C**                          **F**                          **G**  
She sat in her apartment lonesome to the bone  
**F**                          **G**                          **G**  
Wondering what had happened to her man

[Chorus]

**C**          **F**          **C**          **G**  
Love, love, love, love  
**F**          **G**                  **C**  
Nobody ever understands  
**C**          **F**          **C**          **G**  
All the things that go  
**F**          **G**                  **C**  
Between a woman and a man

[Verse]

**C**                                  **F**                                  **G**  
When they'd walk down the sidewalk the street would shine  
**F**                          **G**                          **C**  
With the kind of love no human heart can fake  
**C**                          **F**                          **G**  
And they vowed to stay together till the end of time  
**F**                          **G**                          **C**  
Like the couple that stands on top of the wedding cake

[Chorus]

**C**          **F**          **C**          **G**  
Love, love, love, love  
**F**          **G**                  **C**  
Nobody ever understands  
**C**          **F**          **C**          **G**  
All the things that go  
**F**          **G**                  **C**  
Between a woman and a man  
**C**          **F**          **G**  
If I should live to a ripe old age  
**F**          **G**                  **C**  
The only lesson I may ever learn  
**C**                          **F**                          **G**  
Is to not stand so close to the flame of love  
**F**          **G**                  **C**  
Unless you are willing to get burned

[Chorus]

**C F C G**

Love, love, love, love

**F G C**

Nobody ever understands

**C F C G**

All the things that go

**F G C**

Between a woman and a man

[Post-Chorus]

**C F C G**

All the things that go

**F G C**

Between a woman and a man
