

Save My Life

John Smith

This is just a play-along version in standard tuning, not how it is actually played.

[Verse 1]

G#m **C#**
Perhaps I'd rather be alone

F# **D#m**
See my friends in love, ones just a moment at a time

G#m **C#**
It's a wild abandoned world, my home

F# **D#m**
Nothing I do but think on what's becoming of my life

G#m **C#**
You know I'm getting fat and old

F#
The powers that be have killed in me

D#m
The power that you still hold

G#m **C#**
While my love is growing cold

F#
The booze I said, I never leave it, even though I'm crumbling

D#m
I can cope

G#m
When are you coming down

C#
To the hole I call a home

[Chorus]

F#
Shake off your dress babe

D#m
And bless my soul

G#m
Come on and lift me up

C#
To your place on high

F#
Take off your dress babe

D#m
Save my life

[Verse 2]
