

Fly
John Waite

Fly

For so [D] long, you ve gone [Bm] on
[G] Trying to see an [D] end to it all
But I [Bm] know that your [A] grip, is getting [G] loose

And you think, if you leave
The pain will go away, but you don t know what you need
To get through

Cuz I can [A] tell by the things you [D] say, that your [G] feelings will never
[D] change
You keep [Bm] coming back to [G] what you think is [A] real

Cuz it s [D] ok to wanna be [Bm] free
And it s [G] ok, to spread your [D] wings
If you know how to [Bm] fly, if you [A] know to feel a[G]live

So for now, you go on
Crawling along for a while
You re dragging me down, you re holding me back, you re making it end
Cuz I can tell by the things you say, that your feelings will never change
You keep coming back to what you think is real
Cuz it s ok to wanna be free, it s ok to spread your wings
If you know how to fly, if you know how to feel alive

You can [Bm] fly [G]
You can [Bm] fly [G]
You can [Bm] fly [G]

It s ok to wanna be free, it s ok to spread your wings
If you know how to fly, if you know how to feel alive
And it s ok, to close your eyes, and it s ok to fade away
Don t wanna stay, if you don t think that you ll survive

You can fly
You can fly
You can fly
You can fly
Cuz you can fly, you can fly, you can fly

P.s. This is how it sounds to me, I hope it s any good. Feel free to make adjustments.
