

As Long As The Grass Shall Grow

Johnny Cash

A D
I met you in the shadows and your face was all aglow,
E A
I remember it so well though it was many years ago
A D
We both new something happened without a lot to say,
E A
but we had other lives and so we went our separate ways.
A D
But our hearts communicated and every time we passed,
E A
we were gradually building something that would forever last.

A E A
As long (as long) as the moon (as the moon) shall rise,
(as the moon shall rise),
E A
as long (as long) as the rivers (as the rivers) flow, (as the rivers flow),
D A
as long (as long) as the sun (as the sun) will shine,
D A
as long, (as long) as the grass, shall grow.

A D
My heart was calling for you when one night you came along,
E A
we danced around each other but then we sang our song.
A D
Our harmony was shaky and the pitch not very true,
E A
but then you gave in to me and I gave in to you.
A D
We had to fight the world and we fought with all we had,
E A
we vowed to be together through the sweet times and the bad.

A D
I hear you whisper every night, may I have this dance ?
E A
And though I m not light on my feet, I always take the chance
A D
We have gone through many storms and often walked through fire,
E A
but always our loving faith took us higher and higher.
A D
We know the mystery of life, its love hard and long,

E

A

(I love you) I love you and I always will as long?
