

I Just Thought You'd Like To Know
Johnny Cash

G **D**
I just thought you'd like to know
G
Since you'd made your plans to go
D **G**
It's gonna hurt me so to see you go
C **G**
But I hope you find another love and he'll be good to you
D **G**
But still and yet I can't forget the things we used to do

D
I just thought I tell you this
G
I loved you since that first sweet kiss
D **G**
It's gonna hurt to miss your tender kiss
C **G**
But I hope you get to do the things you say you wanna do
D **G**
But still and yet I can't forget the happiness we knew

{ piano }

I just thought you'd like to know
How much you've hurt my pride
I just thought you'd like to know
How much my heart has cried over you

But darling you could never see
The misery you caused for me
So I will tell you so
Cause I just thought that you'd like to know
