Cause I knew that you d be gone

I D knocked and crossed my fingers while I waited

And I couldn t hide the teardrops

**A**

**D**

When I walked away a-lone.

It s All Over, It s All Over

**D**

My heart echo- es {It s All Over}

**A**

Ev ry minute that you cry for her

**D**

Is wasted don t you know

**G**

It s All Over, It s All Over

**D**

So forget her {It s All Over}

**A**

Stop your cryin

**D**

Turn around and let her go.

I was runnin round in circles like a baby

I was in a daze because

I loved you so, I couldn t see

I was broken in a million little pieces

When I saw enough to realize

You didnt care for me.
