D

I was on my way to you and I was worried

I was all torn up and nervous

Α

Cause I knew that you d be gone

I D knocked and crossed my fingers while I waited

And I couldn t hide the teardrops

Α

When I walked away a-lone.

CHORUS

G

It s All Over, It s All Over

D

My heart echo- es {It s All Over}

Α

Ev ry minute that you cry for her

D

Is wasted don t you know

G

It s All Over, It s All Over

D

So forget her {It s All Over}

Α

Stop your cryin

D

Turn around and let her go.

I was runnin round in circles like a baby

I was in a daze because

I loved you so, I couldn t see

I was broken in a million little pieces

When I saw enough to realize

You didnt care for me.
