C G C F
It s blowing through my stone ears, whistling its way.

Left the song behind old chums
The faintest trace of what s to come
What s behind and what is near
Banished by a suckling ear.
Coffee lustre
Lend me mine
Nothing came with fear and wine, wine.
Been listening all the night long
Been listening all the day

Will I listen for the one you know
Will I listen, will I pray?
It s a coming all the night-long
Its a-coming in the day
Its blowing through my stone ears, whistling it s way.
The music s gone
The music s dead
The music went and in its stead
A single song, a chorus strong
A symphony, songs right or wrong
The band s rehearsing, the radios off
The silence is everything, hold that cough.
Been listening all the night-long
Been listening all the day
Will I listen to the one you know
Will I listen, will I pray?
It s a-coming all the night-long
It s a-coming in the day
It s blowing through my stone ears, whistling it s way.
