Brown Trout Blues Johnny Flynn

Johnny Flynn - Brown Trout Blues

Standard Tuning CAPO ON 4TH!!!!

[Verses]

C G C

Time rolls the back wheels of my mind

You helped me put the brakes on cos you re kind

G F C

Am

C

I wonder where you learned to be so good

G F C

I wonder if I m doing the best I could

[Chorus]

G

I could be somewhere else

F

I should be someone else but

C G C

You wouldn t know me if I was

C Am

You d say I was a stranger just because

G F C

You d say I wasn t weak enough for you

G F C

You d want me just to feel as you do too

G

I could be somewhere else

F

I should be someone else

C G C

But you shouldn t tell me what to do

C Am

I ll only take the brakes off if you do

G F

And roll around like marbles on the floor ${\bf F}$

Please pick me up and roll me out the door

G

```
I could be somewhere else
                                                       C
I should be someone else but
(solo part....)
                                         C
I guess I m happy as I am
                                                             Am
Sometimes I find it hard to be a man
                                                                 C
It s easier just to play the same old game
                                                         C
Of trying to forget my bloody name
I could be somewhere else
I should be someone else
 But how you are mister?
I know what I m called
             F
It s just you got me
             F
                       F#
                            G F#
You got me, you got meeeee stalled
. . . . . .
tã¦bba av Mellow Man
```
