[Verse]

Didn t take long to sing our love
Was a harvest feast, was a hand to glove
When winter came you couldn t stand to sit
You just the same never burnt but lit
With a world at war and my thoughts on you
I didn t care to fall, there wasn t much to do

[Chorus]

C **F** **C** **F**
And the worst and best of all we knew
Am **F** **G** **F** **C**
Stayed out to rust in the morning dew

[Verse]

Churlish May when the year was fair
Gone full circle when things went square
Ate my meal an un-noble beast
Left me to pay not a movable feast
Look I got nothing, dunno where I am
Got a fistful of questions, not an answer to hand

[Chorus]

C **F** **C** **F**

And the worst and best of all we knew

Am F G F Am

Stayed out to rust in the morning dew

(walk-up from Am to C. Play open A string, 2nd fret A, 3rd fret A)

Morning dew

G F Am F

With a blow me down the road, dead in the wood

[Chorus]

Further from you now, then the roots from the leaves

Drunk on the wood, never seen any trees

My ore s out the water and the lake that I m sailing

Is your dear father s daughter and it s cold and I m ailing

Are you drowning me slowly, was the school meant to teach

Are you leaving so slowly, where s the shore, where s the beach?

[Chorus]

C F C F

And the worst and best of all we knew

Am F G F C

Stayed out to rust in the morning dew
