New Mexico Song Johnny Hobo and the Freight Trains

So i noticed the other tab that s basically correct had the chord names under the

lyrics, instead of on top of them which was really confusing. I fixed them to be

in standard tab format, and corrected a couple lyrics.

And now he s driving us
100 miles an hour down the interstate
Another beer in his hand

That was before everyone moved to New Mexico.
They all left a couple of months ago
          C
                    G
Until the day my friend
     Am
                                 G
When I sleep on the floor of your van again
                C
I ll be waiting in this parking lot,
         Am
               C
                      G
and in my dreams, I am dirty broke, beautiful, and free.
                                                              Am
  My hands clenched in a fist, and my face in a smile, after hitching to
   C
many miles.
[Verse]
(Not really sure whats played here, I just play C G Am F twice over, which fits
nicely)
         C
                   G
                         Dm
                              Am
                                     C
                                             G
We aren t revolutionaries,
                              but we are the revolution.
                           C
                                             G
                                                              Dm
And sometimes I think that the whole movement is just me and you
                  C
                                G
And maybe we d all be better off if that was true
Cuz then we d at least know where we stand
                      \mathbf{C}
                                                      Dm
And we could tell our comrades apart from the man
    C
cuz if the world isn t that simple
Maybe this town is at least
                                             Am
And if I m not marching with them for war I m sure not marching with you for
peace
      G
               Am
Class traitor? What fucking ever!
                G
I m just another middle class kid, too.
But if I m not good at changing, I m good at self loathing
```
