**Johnny Reid**

Intro: **E  B  F#**  x2 (on second time let **F#** ring)

Verse 1:

**E**                **B**
I was born by the banks of a river

**F#**               **B**
Back in seventy three.

**E**             **B**
Raised up in a steel town

**F#**                     **B**
Surrounded by fields of green.

**E**                           **B**
The fires went out when the steel went south

**F#**                     **B**
And soon it was time to leave.

**E**                      **B**
Got on a plane back in eighty eight

**F#**                     **B**
And landed on a maple leaf.

Chorus:

**E**       **B**        **F#**
Years fly by right before my eyes

**E**              **B**           **F#**
Love's all I see when I look behind

**E**              **B**                   **G#m**
Time's just a road I'm traveling on

     **E**  **F#**                    **B**
Here I am, right where I belong.

Verse 2:

**E**              **B**                  **F#**          **B**
Met a girl in ninety five in the town of Lennoxville

**E**                   **B**
We both fell in love one night

**F#**          **B**
There upon a hill.

**E**          **B**
Five years later I said

**F#**                    **B**
Baby will you marry me

**E**
She gave me her heart

**B**
She gave me her soul

**F#**                    **B**
She blessed me with a family.

Chorus:

**E**          **B**          **F#**

Love’s all I see when I look behind
