

**Endless Party**  
**Johnny Thunders**

Great song by Johnny Thunders, often underrated.  
As long as I couldn't find even the lyrics of this song on the Internet, I had to write it by myself, so it probably has mistakes.  
I'm pretty sure the chords are in the right key, but any correction is welcome...

**E** **A** **B**  
Well, I told you stories and you ..... bliss  
**E** **A** **B**  
How your lovers always give you kisses

SOLO: same chords as verses

I highly recommend do E5, A5 and B5 instead of simple chords

E |-----|  
B |-----|  
G |--9-----|  
D |--9---7---9--|  
A |--7---7---9--|  
E |-----5---7--|
