## Family Values Johnossi

This tab is based on one I found at swedetab.se, thx to the person who wrote it (i dont know the name). I changed some of the lyrics and placed all of the into the lyrics. Johnossi s webpage: www.johnossi.com/ Well here it comes: Capo on the 6:th Johnossi - Family Values Intro: C Am C Am I had a sister named Emma Mississippi is a river that floats in the states. Just like the memory in the wisdom of the water our souls were connected in so many ways, well Even though we haven t talked in a while I m still waiting for the day to come when you will arrive I m sorry if I ruined happy times we ve been through but no wonder, if I can spend my days without you and I had a mother, and her name is Carolina Δm Carolina is a state in the states I think there s fifty but there s only one mother and she won t even look in my face, well You know I d give it all to be loved by you again but everything s my fault so I ll carry the blame But now I m growing, I get older while the days pass by

soon I ll be dying, thinking you won t look me in the eyes

And it s sad
 Am
so sad
Family values
that we had, it s just a memory
in your mind, what you gone bad
There s no love
I had a father named Mr Engelbert
and Engelbert Humperdinck sings really good
I haven t heard him but I hear my fathers voice
it s in the dreams where things are like they should
I miss your love which came naturally
sometimes I cry, when I think about how things used to be
Well at least come and visit me for only one time
daddy I love you but I know you won t pay me no mind
And it s sad
      Am
it s so sad

that we had
It s just a memory in your mind
we ve gone bad
There s no love, no
