Crystal Clear
Jolly Intense!

[Verse]
Em7
Today has come and gone away

                                       Aadd9
There is nothing I can feel but pain
Aadd9
Deep inside your etes, it s where I look
                         Em7
When I want to feel young
Em7
Inside your soul I cry

                                      Aadd9
There is no reason to feel this way
Aadd9
I ve waited years for now

                                       Em7
You re the one that I can t live without
Em7
All I need to know

                                Aadd9
Will you be here or will you go?
Aadd9
Will you go?

[Chorus]
D   **A7sus4**
Runaway from all your doubts and fears
A7sus4   **D**
This is the world and it is crystal clear
D   **A7sus4**
I ve been away for far too long
A7sus4   **D**
Now my mind is holding strong

[Verse]
Em7
I ve been to places unknown
                                      Aadd9
Where I ve been I don t want to show
Aadd9
We talk of what we want

                                         Em7
We don t care of what we really need
Em7
We live our selfish lives

```
                                          Aadd9
Turning into who we don t want to be
Aadd9
There s mass genocide
                                          Em7
We don t care  cause it s not on T.V.
Em7
I ve tried to be someone else
                                          Aadd9
Now he s gone and I m gonna be myself
Aadd9
I m gonna be myself

[Chorus]
D                                A7sus4
Runaway from all your doubts and fears
A7sus4                                D
This is the world and it s crystal clear
D                                A7sus4
I ve been away for far too long
D                           A7sus4
Now my mind is holding strong
A7sus4                      D
Take my hand for what is right
D                                A7sus4
Believe what you want, it is your choice
A7sus4                      D
All that matters is how you feel
D                                A7sus4
Take a breath, does it seem real?

[Verse]
Em7
Sitting here all by myself
                                Aadd9
Can you help me with my mental health?
Aadd9
All these days gone by
                                Em7
I can hardly tell if it is you
Em7
My world is re-arranged
                                Aadd9
All of this hate just feels plain
Aadd9
We re not civilized
                                Em7
Are we ever going to see the light
Em7
I will take your hand
                                Aadd9
If you promise to save my life
```

[Chorus]
```
D                              A7sus4
Runaway from all your doubts and fears
A7sus4                         D
This is the world and it s crystal clear
D                        A7sus4
I ve been away for far too long
D                        A7sus4
Now my mind is holding strong
A7sus4                   D
Take my hand for what is right
D                              A7sus4
Believe what you want, it is your choice
A7sus4                   D
All that matters is how you feel
D                        A7sus4
Take a breath, does it seem real?
```
