[Chorus]
```
        D                             G
What if who I hoped to be was always me?
        Bm                            G
And the love I fought to feel was always free?
        D
What if all the things I ve done, yeah
              G
Were just attempts at earning love? Yeah
          Bm                          G           D
 Cause the hole inside my heart is stupid deep, stupid deep
```

[Instrumental]
D G Bm G

[Verse]
```
        D                             G
What if where I ve tried to go was always here?
        Bm                            G
And the path I ve tried to cut was always clear?
          D
Why has life become a plan, yeah
              G
To put some money in my hand?
          Bm                        G           D
When the love I really need is stupid cheap, stupid cheap
```

And the love I fought to feel was always free?

What if all the things I ve done

Were just attempts at earning love? Yeah
