

Dyin Aint Much Of A Livin
Jon Bon Jovi

This song is recorded originally in Eb tuning (Eb Ab Db Gb Bb eb), namely a half step down from the standard tuning which is E A D G B E. The chords are tabbed by ear from the original recording. If your guitar has standard tuning and you attempt to play along with the song the chords won't fit. So you need to tune your guitar to Eb tuning first. Don't forget to rate and any comments are welcome. Enjoy!!!
