Notes on verse

first make your G* this 3x0003 for the first hit and then bring it into a 320013
When you get to the F*, it looks like xx321x... and if you are able to bar
with your thumb, make it a 3x321x... sounds fuller

C
We watched the western sky
Am **G***
Falling like a land slide

F*
We saw the half light disappear
C **Am**
I know how it hurts inside

To feel like something died
(on died he goes to a A# thing x1333x)
F (Normal this time)
On your own year after year

Am **F**
I would Never leave you
C **G** (3x0003)
I would Never leave you
Am **G** (320013) **F**
Even in your pain you were never alone

2nd verse is the exact same as verse one.

Chorus again
Am
Can you hear my heartbeat
Dm (xx0231)
Can you hear my heartbeat
F (x3321x)
Can you hear my heartbeat
G(3x0003)

G(3x0003)

This part is where I am not 100% sure on... But these chords should work ok regardless

Can you hear my heartbeat keep running

C **F(x3321x)**

can you hear my heartbeat keep running

C **F(x3321x then to a normal bar F on Yeah)**
