[Chorus]

```
And It Flows
Jon Theis
 [Intro]
D Bm G A
[Chorus]
And it flows yeah it flows
It flows on down the line
       D
                     Bm
And it flows
                                      D
It flows until the end of time
[Verse 1]
Sittin here right next to the river
The place that always seems to deliver
The good times
                   Α
In my life
I sit here and I watch the gleaming
Of the sun and search for meaning
  G
In time
And in my life
[Pre-Chorus]
        D
                             \mathbf{Em}
But the only thing that the water knows
Is its only job is to go with the flow
High water rage or levels droppin
It keeps on flowing without stopping
```

D BmAnd it flows yeah it flows It flows on down the line D And it flows D It flows until the end of time [Verse 2] Sittin here just watchin the rapids Not worth the trade of sitting in traffic For my time D Α And my life Sittin here just wondering why Took so long to take back what s mine Yeah my time And my life [Pre-Chorus] Em But the only thing that the water knows Α Is its only job is to go with the flow High water rage or levels droppin It keeps on flowing without stopping [Chorus] BmAnd it flows yeah it flows It flows on down the line And it flows It flows until the end of time

[Solo]

D Bm G D A
D Bm G A

[Pre-Chorus]

D Em

But the only thing that the water knows

G A

Is its only job is to go with the flow

D Em

High water rage or levels droppin

G A

It keeps on flowing without stopping

[Chorus]

) Bm

And it flows yeah it flows

G A

It flows on down the line

D Bm

And it flows

G A D

It flows until the end of time $% \left(1\right) =\left(1\right) \left(1\right) \left$
