

The Steel
Jon Theis

[Intro]

G Bm Em C
G Bm Em D
C Em Bm Am
G

[Verse 1]

G
It's made of many things, it ain't just one
Bm Am
If you heat it up enough, well then it's bound to run
G
It carries more weight, than most that are around
Bm Am
When it falls, it's a chore to get off the ground
G
But the strength it has, far outweighs the mass
Bm Am
Holdin' strong, when others just might crack
G

[Chorus]

G Bm
Because I've known the heat and the hammer
Em C
So I've grown and built me this ladder
G Bm
And I'll climb my way out from hell and make my way North
Em D
The solution and the problem they both come from the same source
C Em Bm Am G
And it's the steel, yeah it's the steel

[Verse 2]

G
Light it up, and get that thing firin'
Bm Am
A dash of carbon and a fistfull of iron
G
You can find it anywhere you might rest your gaze
Bm Am

Spannin' skies and rivers, and movin' round our days

G

You can melt it down and build up something new

Bm

Am

Without losing anything, not losing what you knew

G

[Chorus]

G

Bm

Because I've known the heat and the hammer

Em

C

So I've grown and built me this ladder

G

Bm

And I'll climb my way out from hell and make my way North

Em

D

The solution and the problem they both come from the same source

C

Em

Bm

Am

G

And it's the steel, yeah it's the steel

[Solo]

G Bm Em C

G Bm Em D

C Em Bm Am

[Chorus]

G

Bm

Because I've known the heat and the hammer

Em

C

So I've grown and built me this ladder

G

Bm

And I'll climb my way out from hell and make my way North

Em

D

The solution and the problem they both come from the same source

C

Em

Bm

Am

G

And it's the steel, yeah it's the steel
