The Steel Jon Theis [Intro] G Bm Em C G Bm Em D C Em Bm Am G [Verse 1] G I s made of many things, it ain t just one Bm Am If you heat it up enough, well then it s bound to run G It carries more weight, than most that are around Bm Am When it falls, it s a chore to get off the ground G But the strength it has, far outweighs the mass Bm Am Holdin strong, when others just might crack G [Chorus]

G Bm Because I ve known the heat and the hammer Em C So I ve grown and built me this laddder Bm G And I ll climb my way out from hell and make my way North Em D The solution and the problem they both come from the same source Em Bm Am G And it s the steel, yeah it s the steel

[Verse 2]

G Light it up, and get that thing firin Bm Am A dash of carbon and a fistfull of iron G You can find it anywhere you might rest your gaze Bm Am Spannin skies and rivers, and movin round our days G You can melt it down and build up something new Bm Am Without losing anything, not losing what you knew G

[Chorus]

G BmBecause I ve known the heat and the hammer Em C So I ve grown and built me this laddder G Bm And I ll climb my way out from hell and make my way North Em D The solution and the problem they both come from the same source Bm G С Em Am And it s the steel, yeah it s the steel

[Solo]

G Bm Em C G Bm Em D C Em Bm Am

[Chorus]

G Bm Because I ve known the heat and the hammer Em С So I ve grown and built me this laddder G Bm And I ll climb my way out from hell and make my way North Em D The solution and the problem they both come from the same source С Em Bm Am G And it s the steel, yeah it s the steel
