Fountains
Jon Thurlow

Fountains â€" Jon Thurlow
Capo 1:

[Verse 1]
```
E                                          B/D#
Cast your cares upon Me

                         C#m
For I care for you

                       A2      B
I care for you
```

[Chorus]
```
E                                          B/D#
â€˜Cause all your fountains are in me,

                                       C#m
and I have everything you need.

        A2                 B
Just keep coming back to Me.
E                                      G#m
Those who call upon My name

                                   C#m
they will not be put to shame.

        A2
Just keep coming back to Me.
```

[Bridge]
```
E                                          G#m
So come to me if youâ€™re weary

                         C#m                      A2
and Iâ€™ll give you rest, Iâ€™ll give you rest
E                       G#m                       C#m
My yoke is so easy and my burden is less

                   A2
my burden is less
E                                      B/D#
Just cast all your cares on Me,

                         C#m                  A2      B
cause I care for you, I care for you.
```
