C Fmaj7 Am G9  
Two days of sleepless nights  
C Fmaj7 Am G9  
Serenaded by the buzz of the old street lights  
C Fmaj7 Am  
Staring at the glow of the city night  
G9 C Fmaj7 Am G9  
Left wandering the hills in my head

I still remember your favorite song  
But I forgot to write and I've been gone too long  
The last thing I saw was the sun  
Dip behind a mushroom cloud

Fmaj7  
Angels are ideas  
C G9  
Stuck inside my head  
Fmaj7  
Love is just a dream  
C G9  
I had when I was in your bed  
Fmaj7 C G9 Fmaj7 G9  
We have to learn to live without it now  
C Fmaj7 Am G9  
In a world without love

We'll adapt and watch our own backs  
Eyes in the back of our heads  
Some will call that progress  
It makes me want to stay in bed

Who says that we don't need love?  
We're all alone, no one above

No olive branch, no white-winged dove  
How will we survive?

Angels are ideas  
Stuck inside my head  
Love was just a dream  
I had when I was in your bed  
We have to learn to live without it now  
In a world without love  
In a world without love, love, love  
In a world without love, love, love, love, love  
In a world without love

Everyone go and get your gun  
One big bomb and were all done  
You know you can t trust anyone  
In this crazy world

Angels are ideas  
Stuck inside my head  
And love was just a dream  
I had when I was in your bed  
We have to learn to live without it now  
In a world without love  
In a world without love, love, love  
In a world without love, love, love, love, love  
In a world without love

Don t want to live in a world without love (repeat)
