

If Only As A Ghost
Jonas Alaska

C/G Am
Could you please come back to me if only as a ghost
Am G F
I might not be alone in grief but I need you most
F G Am
You r not just my older brother, you r my best friend
Dm (Am) G7
I never got to tell you that

F G Am Am-C
So please come back again

My sweet wife is sleeping now, so s my newborn son
I wish that you could be with me as my life just begun
You should see him lying there he looks just like me
But I sure hope that it is you
That he grows up to be

The day you died, I thought that I was gonna die as well
Everything was shaking and my life turned to hell
I m telling you i m happy that a son is born to me
But sometimes I cant bear the thought
That you r not here to see

Mama, paps, the rest of the bunch and all our good friends to
We re riding on a swimming horse and we still talk of you
But in the night, when i m alone I think about before
When I was throwing magazines
At you because you snored

Solo

I dream about our arguments, I dream about our love
I can t stand people telling me you r watching above
It s giving me no comfort thinking God s now your host
Cause I m the one who needs you here
If only as a ghost
