Gm С  $\mathbf{F}$ Let s stay younger together, let s stay younger together вb Gm C  $\mathbf{F}$ Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together.

Always, you ll always be my fantasy Even when we re grown up, know that I love you better than today One day we ll be dancing slowly, but for now I ll make it rain I can see the future calling anyway

Cause you know that we got time to get ourselves together We got time for us Someday, let s waste our time like we ll be young forever Stay forever young When we were seventeen, feels like just yesterday Living a lucid dream, those years just fall away One day we ll be thirty three before we re old and gray Let s still be seventeen like yesterday.

Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together, let s stay younger together Let s stay younger together...
