Am G C F

Try to fall asleep tonight

Am G C F

Lay awake and dream of a life

Where we thought that we could make it

We wasted all our time

Am G C F G

And I wouldn't change a single thing, I know

CHORUS:

F C G

We get closer and closer again

C

But we're falling apart

F C G

I'm losing, you're losing a friend

Am F

It's always over before we start

C

You're asking for love

G

And I wish that it could be the way that it was

F

But it's over

C G

There's no one to blame

F G C F

It'll never be the same

VERSE:

Am G C F

Two wrongs don't make it right

Am G C F

Two hearts are on the line

Am

Maybe we could have made it

G

Have waited

C F

Done this right

Am G

In the end, I m a friend

**C F G**

But that s all I am to you, oh
