Am **C** **G** **Am**
My father would shower for work every day
F **G** **Am**
He shaved by the ol radio
C **G** **Am**
We d listen in bed for that rythm each day
F **G** **Am**
Wonder how one man could sink down that low

Am **C** **G** **Am**
Then my cousine brought money from worlds faraway
F **G** **Am**
With colors and strange sounded names
C **G** **Am**
And I search like a sailor to find where they lied
F **G** **Am**
promissin myself I would go there one day

F **G** **C** **Am**
My grandfather gave me an ol radio
F **G** **C** **Am**
It played foreign stations from crystals that glove
Dm **F** **Am**
And just like a comet ready to appear
Dm **F** **Am**
I knew it shines much brighter in that new atmosphere
F **C** **G** **Am**
When morning comes to Amerika

Solo vers

Am **C** **G** **Am**
A mother awakens somewhere in the west
F **G** **Am**
a child contends from her breast
Am **C** **G** **Am**
Her husband soon joins her and walk down the stair

findin her a ribbon to pull back her hair

My grandfather gave me an ol radio

It played forein stations from crystals that gloves

I knew it shines much brighter in that new atmosphere
