Desert Raven by Jonathan Wilson

Verse

Dm **G**
Fuzzy white haze in the asphalt was awaking
Dm **G**
The sand was a grayish shade of blue
Dm **G**
Spirits of desire were her eyes they did admire
Dm **G** **F**
The evening that we only thought we knew

Dm **G**
Further out to sea I held the rose wings over me
Dm **G**
Vibrations in the air turn my ears
Dm **G**
The sun was rising, sleeping though day was saddled up to go
Dm **G** **F**
The desert is a lonely night for disappear

Chorus

D **Dm**
The rain in flowers through the desert sky
G
Is wiser then you or me
D **Dm**
The birds now go east but still miss a sleep
G **F**
And the desert raven he has palm trees

Verse

Close your eyes and fly away
Let the diamonds make the light
Crystal blue will turn your ruby red
Pass with I m amazed with a heaven story hazel
Ever since it galloped over head

Buffalo at night they follow close the river s edge while
Saffron slowly grows inside the cage
The star reminds of how you sit
At home below in the suns eclipse
The sandy canyon flows beyond the wave

Chorus

The rain in flowers through the desert sky
Is wiser then you or me
The birds now go east

But still miss a sleep
And the desert raven he has palm trees
