

Circling The Sun

Jonny

Will I stay in your heart, or will our days be spent apart.
Always wondering, never knowing, what could be?
Every day, I wake to find you still occupy my mind.
And I have to find my way back to you.

Chorus

Every day brought you wonder; we had just begun.
Without a care and nothing in our way.
Around the coast and down the highway; circling the sun.
Theres no one that I want more than you.
Changing skies, turning tides, theres a heartache I cant hide.
Winters long, winters cold without you.
The love we shared, uncompered, and in my mind Im always there.
And I got to find my way back to you.

Chorus

Every day brought you wonder; we had just begun.
Without a care and nothing in our way.
Around the coast and down the highway; circling the sun.
Theres no one that I want more than you.
